What we do

help2kids Children's Home

Our Children's Home provides a safe and loving environment for 33 children. Our children are cared for by our nurturing staff, they are provided with a quality education and enjoy many worthwhile extracurricular activities.

Bajeviro Primary School

We partner with Bajeviro Primary School, providing educational materials such as textbooks and computers and supporting the teachers in various ways. We have also been able to provide a health meal for all 390 primary school students each day, taking over all cost and managing the School.

Health Project

The Health Project provides health care and services to more than 600 children around Dar es Salaam, as well as health resources like First aid Supplies and Mosquito nets. We also deliver health care workshops for children and caregivers.

Kunduchi Day Care Centre

We partner with Kunduchi Day Care Centre, providing students with educational tools and materials as well as porridge each day to help them learn and grow. We also support the teachers so they are fully equipped to guide our students through education.

Education Sponsorship Programme

We recruit sponsors from across the world to sponsor children through their education, both children from the Children's Home, as well as sponsoring graduates from Bajeviro Primary School into Secondary School education.
